**Memorandum**

June 27, 2008

To: Mayor Karen Tingle-Sames  
Georgetown City Council

From: Michele M. Pogrotsky  
Director of Finance

Re: Approved 2008-2009 Budget

Attached is the approved budget for the 2008-2009 fiscal year. The Mayor's original budget was amended, and the numbers throughout reflect those changes. The Finance Director's transmittal has not been changed to reflect the amended budget. The revenues budgeted in the General Fund are \$20,214,661 with expenditures budgeted at \$21,640,504. The Expenditures exceed the revenues by \$1.4 million.

There is also money from the Sanitation Fund that is budgeted in the General Fund to repay the purchase of the Herbie Curbie containers. The Sanitation Fees were increased from \$11 per residence to \$15 in the amended budget. An increase was also approved for the commercial users.

Other changes were money allocated to the non-profits, the short term disability for the employees and an increase in the life insurance to \$25,000 per employee. A pay increase of 3% for all employees was added. Several projects and capital items were removed. A few positions were unfunded.

Refunding of the debt service was included to reduce the difference between the revenues & expenditures. The total budget of all funds for the City is \$26 Million.

CITY OF GEORGETOWN

AMENDED BUDGET 2008-2009

KAREN TINGLE-SAMES, MAYOR

June 30, 2008

From: Mayor Karen Tingle-Sames

Date: June 30, 2008

Subject: 2008-2009 Budget

Contained herein is the budget for the next fiscal year. It is a very lean, straight forward budget.

I did not believe it could be possible to have a tighter budget than we had last year, but this proposed budget suggest even more cuts. Many projects for the upcoming year will have to be postponed. Many people will be disappointed with this budget, but the City of Georgetown is not alone this year with the budget problems we are facing.

It was my goal for our expenditures to not exceed our revenues in the budget that I presented, but the City's current financial status does not allow me to do that. The attached budget does not reflect a perfect world, but it does give us a foundation to go forward from where we are and provide the necessary services for the City.

## **Finance Director's Transmittal**

In accordance with the City of Georgetown's Budget Ordinance, the Mayor with the assistance of her Department Directors and the Finance Department Staff has prepared the recommended budget for the fiscal year ending in 2009, and hereby submit it to the City Council Members for their review and approval.

The General Fund's operating revenues are budgeted at \$20.7 Million and operating expenditures at \$22.7 million with a net decrease to the fund balance of \$2 million. The City's main source of revenue is from the occupational and net profit taxes. These are budgeted with a 8% decrease from estimated fiscal year ending 2008 receipts and a 23% decrease from the amount budgeted in 2008. The net profits have declined and they are expected to remain at 2 million for the 2008-2009 fiscal year. Occupational taxes are estimated to remain constant at 10 million. The total estimated net profits are budgeted, but at a much lower conservative amount. During this budget year, monthly financial oversight is of the utmost importance. Because the expenditures and transfers to the other funds exceed the revenues by more than 3.7 million in the 2007 fiscal year and the estimate for the 2008 fiscal year end is over 1 million, this is more important than in past years. There is an expected increase in property taxes due to the addition of property, but currently this is an unknown amount and was not budgeted. During the first two quarters, the City should evaluate their financial situation to determine if any adjustments are needed. The City has Certificates of Deposit of \$2.6 million which serves as the City's savings or reserves. Depending on the cash flows of the City, a portion of these may be needed to operate. There are three (3) new revenue sources for the General Fund. The City will now receive CMRS (Commercial Mobile Radio Service) Funding that is collected by the wireless carriers. These are estimated at \$160,000, and will be included when sharing the expenditures with the County. A Garbage Franchise Fee is included at \$100,000 and a Sewer Assessment Fee at \$400,000. Both of these are contingent upon approval of the City Council. Also proposed is a 3% increase to the alcohol tax that will need council approval.

The Sanitation Fund has revenues included in this budget that are new. An increase in the sanitation fees from \$8 to \$11 for the residential is proposed. This is a 37.5% increase. The proposed increase for the business customers is 50%. The rates vary depending on the type of business, but all received the same percentage increase. This also is contingent upon approval by the City Council.

The expenditures included in preparing the budget are \$13.7 million for all salaries and benefits in the General Fund, Public Safety Fund, Sanitation Fund, Cemetery Fund, and the Cardome Fund. The debt service payments total \$1.8 million. These are accounted for in the General Fund, Solid Waste Fund, and the Business Park Fund. The funds transferred to the County and the other governmental agencies that require the City's support total \$3.7. These three categories total \$19.2 million prior to any allocations to daily operations in the City Departments or transferred to the other funds to fund those operations. The City will provide Medical, Dental, Life, and Retirement Benefits to all full-time employees. The medical insurance increased 6% for the City and the dental insurance 10%. The City provides medical and dental coverage for the employees, their children, and their spouses with no cost to the employees.

Many employees voiced their preference to keep the full family coverage over a pay increase, if there had to be a choice. Because of the lack of revenues to cover our expenses, there are no pay increases included in the budget. The hazardous duty retirement that is paid on all full-time employees for this budget is 31.99% and the non-hazardous is 15.58%. In preparing the budget, overtime hours and additional hours allocated to the Departments were reviewed. The overtime was cut in all departments which is why some of the departments show a decrease in personnel services. Some part-time positions and full-time positions were also not funded in an effort to balance the budget. The following information is provided by Fund to give an overview of the expenditures that are included in the budget.

### **General Fund**

The services provided to operate the City for the Citizens of Georgetown are reported by departments in the General Fund. Included are General Government, Police Services, Public Works, Fire Services, Recycling, Landscaping, Communications, and Building Inspection. The City Clerk's and the City Council's budgets are also included with the payments to the joint agencies that the City funds with the Scott County Fiscal Court. The contributions that are made to Scott County Senior Citizens, Georgetown Scott County Museum and contributions for economical development are in this fund. Debt Service is paid from this fund and transfers are made to supplement the operations of the other Governmental Funds and the Solid Waste Enterprise Fund.

### **General Government**

The Mayor's Office, City Attorney's Office, Finance Department, and Human Resource Department are included under General Government. This section accounts for the executive and administrative activities. Total expenditures budgeted for this department are \$2.9 million. The Human Resource Director will continue approving the travel and training for all departments and the Computer Specialist will be involved in recommending all computer purchases. Both are accounted for in General Government. This should continue to improve the controls in both areas and provide a savings to the City. There are a few capital items listed under general government. Included are matching funds for a Main Street Grant if the City was selected. The sidewalk replacement and storm water grant projects are also included.

### **Police Department**

The City of Georgetown's Police Department is responsible for preserving the peace, protecting life and property, preventing crime, and enforcing federal and state laws and city ordinances. Because of the budget constraints and economic changes, the Police Department did not request any vehicles to continue with their on going replacement program. The initial construction cost for the new Police Station for architect design work and demolition are included. The initial funds will be provided through a bond lease to include the total cost for the new building. Total expenditures for the Police Department are \$5 million.

**Public Works**

The City's Public Works Department serves many functions for the City. The total cost to operate the department is \$1.5 million. The administration is responsible for planning, organizing, directing, and controlling the operations department. Road maintenance is responsible for the roads and streets which include the street lights, signage, storm drainage, construction, snow removal, and clean up of the city's festivals and parades, and maintenance of the City's facilities. The Public Work's Director also oversees Beautification, Recycling, and the Cemetery. The Departments share many of the same responsibilities and can operate under one umbrella. This allows for improved efficiency and reduces overtime and temporary employees. The City Engineer's office is located at Public Works and his budgetary needs are included with Public Works. Included for capital projects in Public Works are funds to continue the mandated Storm Water Projects, sidewalk replacement projects, and the parking lot replacement at the Public Works site. The cost will be shared with the Sanitation Department in the Sanitation Fund. The Storm Water Grant project located at the parking lot by Fire Station 1 is also included. There is an in-kind contribution required by the City, but the monetary needs are provided by the grant. Monies have also been budgeted to mediate the old City Garage Parking Lot located behind City Hall. This is planned to be done concurrently with the demolition at the Police Department and that should yield a savings. Funds are also included for a lease payment for a bulldozer. The payments will be divided over 5 fiscal years and is a better use of the City's cash flow.

**Fire Department**

Georgetown's Fire Department has implemented the incident command and management system to not only manage emergency responses but to also manage the day to day activities of the department. The functions of the departments are emergency responses, training, inspections of businesses, preplan responses of business (fire), car seat education and installation assistance, fire education and prevention activities, and maintenance of stations and apparatus. Total expenditures of personnel, benefits, material services and capital items are \$4.1 million. The nine (9) new firemen that are partially funded with the Safer Grant are not included in the salary and benefit line items in the General Fund but in the Public Safety Fund. The amount being transferred to the Public Safety Fund from the General Fund is \$389,458 for the City's share of the grant. The total cost for the Fire Department in the Public Safety Fund is \$631,648. There are no Capital items in the Fire Departments Budget, but the Department is seeking grant monies for a fire truck and fire equipment.

**Recycling**

The collection, processing, and transportation of recycled goods are the responsibilities of this department. Scott County Fiscal Court shares this program with us 50/50. The cost to operate the department is \$243,341. Recycling is included under the management of the Public Works Department.

**City Council**

The City Council is the City's Legislative Body that represents the citizens of Georgetown. They enact all ordinances, appropriate funds, and establish all policies for the City. The proposed budget of the Council is for Personnel Services and the total is \$92,929. There are no benefits budgeted for the City Council.

**Building Inspection**

Building Inspection is a joint program with Scott County Fiscal Court that is operated through the City Budget. The expenditures are shared 50/50. The department is responsible for issuing building permits and inspecting building sites in accordance with applicable regulations. There are no Capital Expenditures budgeted. The Department's total budget is \$646,938.

**Telecommunications**

Telecommunications is also shared 50/50 with the Scott County Fiscal Court but operated through the City Budget. The total cost for the department is \$1.099 million. There are no Capital Expenditures budgeted.

**City Clerk**

The City Clerk's total budget is \$195,246. There are no Capital projects in this Department.

**Landscaping**

Landscaping is responsible for the maintenance of public lands and right of ways. This includes mowing and planting. The budget is \$265,300 and includes \$5,000 for Equipment and \$5,000 for repairs on the Log Cabins. This Department is also included under Public Works.

**Joint Agencies**

The agencies that are independently operated by a board or by the Scott County Fiscal Court but shared by the City are Parks and Recreation, Planning and Zoning, Georgetown Scott County EMS, Georgetown Scott County Emergency Management Agency and Office of Homeland Security, and the Animal Shelter. Included in Parks and Recreation are the operations of the Pavilion, the Ed Davis Learning Center, the new outdoor Aquatic Center and the Youth Center. The total amount budgeted for these agencies is \$3.6 million.

**Community Service Agencies**

The total requested from the Community Service Agencies for the budget was over \$260,000 but with budget restrains and reductions required in the City Departments there was not money to allocate to the Agencies this year.

All of the non-profits play an important role in our community, but without cutting City services to the Citizens these programs could not be funded. Monies were budgeted for the Senior Citizens Center at the same level as last year.

**Economical Development**

Several agencies that had been funded under the Community Service Agencies were moved under Economic Development to better define their mission. The total amount included for these agencies was \$108,000.

**Transfers**

Transfers from the General Fund total over \$2 million. The Solid Waste Fund, Cemetery Fund, Public Safety Fund, Cardome Fund, Business Park Fund, and the Streetscape Grant in the Main Street Fund require transfers from the General Fund to operate. With the additional revenue in the Sanitation Fund, a transfer this fiscal year is not needed.

Solid Waste receives revenue from the sale of the landfill, but a transfer is needed to cover the debt service for the Briar Hill project and to maintain the landfills. The State of Kentucky also requires \$55,000 to be budgeted for emergencies if needed. The transfer to the Solid Waste Fund is \$679,195.

The Cemetery receives revenue from the sale of lots and services and interest from the Cemetery Trust. The excess of the expenditures over the revenue is divided between the City and Scott County Fiscal Court. The budgeted transfer for the Cemetery Fund is \$67,343.

The Public Safety Fund accounts for the grants received for the Police and Fire Departments. A transfer is needed to cover the percent that the City is responsible for on the Safer Grant that provided the nine (9) additional firemen. The budgeted amount is \$389,458.

The Cardome Fund accounts for the operation of Cardome Centre. The revenues are limited in this fund, so a transfer of \$493,273 is needed to balance this fund.

The Business Park Fund receives revenue from the sale of property, but transfers are needed to cover any current year deficits in the fund. The amount needed for the transfer is \$411,200.

**Enterprise Funds**

The City of Georgetown has two (2) Enterprise Funds in the accounting structure. These are business type funds that have revenues and should not depend on the General Fund for transfers.

**Sanitation Fund**

In the Sanitation Fund, the total expenditures are \$ 1.3 million. There is an increase in the Sanitation Fees that was discussed at the beginning of this transmittal. With the increase, a transfer from the General Fund was not needed. The Herbie Program that started during the 2006-2007 Fiscal Year will be finished during the 2007-2008 fiscal year, so no additional containers are included in this budget. One (1) garbage truck is included to be purchased through a five (5) year lease.

**Solid Waste Fund**

The Solid Waste Fund accounts for the maintenance for the landfills and to pay the debt on the Briar Hill Projects. Total Debt Service Payments for the budgeted year are \$371,546. Revenue from the sale of the landfill is recorded in this account and is estimated at \$190,000 in this budget.

**Special Revenue Funds****MAP Funds**

The Municipal Aid Fund accounts for the revenue from the Commonwealth of Kentucky for the purpose of maintaining and paving the streets. Revenues are estimated at \$339,286 with expenditures budgeted the same. During the 2007-2008 fiscal year, the City entered into a Memorandum of Agreement with the State of Kentucky to put 3% of the City's Funds in an emergency fund with the state. The funds would then be available if needed. Through this agreement, payment for the current year is received in two (2) lump sum payments instead of monthly.

**LGEA Fund**

The LGEA accounts for the revenue from the Commonwealth of Kentucky for the purpose of street maintenance and public safety.

**Drug Fund**

The Drug Fund accounts for Federal and State Money that is received with specific guide lines for spending. The funds must also carry over from one year to another. There is a carry forward from previous years and there is expected revenue.

**Cemetery Fund**

The Cemetery Fund accounts for the operation of the City's cemetery. Expenditures are budgeted at \$309,686. The amount that expenditures exceed revenue is divided by the City and County. The City's portion is transferred from the General Fund.

**Cardome Fund**

The Cardome Fund accounts for the revenues and expenditures of the Cardome Centre. Expenditures are budgeted at \$567,273. There are no Capital Projects in the Cardome Fund.

**Public Safety Fund**

The Public Safety Fund accounts for Grants for the Police Department and the Fire Department. The Nine Firefighters' salaries and benefits under the Safer Grant are included. A transfer from the General Fund of \$389,458 is for the City's percentage of the grant. At the current time, this is the only known grant included in the budget. There is a Homeland Security Grant and the Swift Water Grant for the Fire Department that the City may need to amend the budget, if they carry over to the New Year.

**Community Programs Fund**

Community Programs Fund does not have any projects budgeted. The Senior Citizen Grant and the Japanese Garden Grant should be completed by the beginning of the new fiscal year.

**Business Park Fund**

The Business Park Fund accounts for the property sales and the ongoing development and maintenance at the Lane's Run Business Park. The new road and sewer construction should be complete before this fiscal year. There are property sales over \$700,000 estimated for the 2007-2008 year. The Business Park's new addition is a college under KCTCS. This will be a wonderful asset for the Business Park and the City of Georgetown. If monies are needed in conjunction with the additional sale of property, the budget can be amended. A transfer will be made from the General Fund to cover the debt service in the Business Park.

The City's Revenue is estimated with a \$2.3 million decrease when compared to the 2007-2008 Budget. The income from the Revenue Commission is budgeted at \$12.6 million with the occupational tax representing 82% or \$10.4 and the net profits at 18% or \$2.2.

Intergovernment Revenue is the payments from Scott County Fiscal Court for the joint departments that the City funds. The payments the City makes to the county are included in the joint department's expenses.
